Management Discussion and Analysis Report

INDUSTRY STRUCTURE AND DEVELOPMENTS

Caprihans is one of the largest manufacturers of PVC Films, consisting of both Flexible and Rigid. The company is one of the leading players in pharma/non pharma packaging industry in India, producing high quality products. The Company operates from its two plants located at Thane and Nasik, Maharashtra. The company also has sales offices across India.

The Company is engaged in the processing of plastic polymers and manufactures PVC films by calendering process. It also produces PVDC coated Rigid PVC film and certain other plastic products through extrusion processes. Rigid PVC film is largely used for packaging in the Pharmaceutical, Food and FMCG industries. Flexible PVC film and plastic extruded products are used for a variety of industrial and consumer applications. Overall growth rate of the market size is estimated to be around 10% annually.

The image of the Company, built through decades of quality products and efficient customer service is the major strength of the Company. The Company has a significant share of the Rigid PVC film market and is also the quality leader in the Flexible PVC film market.

OPPORTUNITIES, THREATS AND OUTLOOK

The Company foresees opportunities of growth in the coming years. With the growing trend of mass consumerism and better living standards, demand for Company's products are expected to grow. Opportunities can also be explored to convert certain non-PVC packaging applications into PVC-based films. Though the Company is a major player for over decades, it faces competition in domestic market, as similar products being made available by many local players belonging mostly to the unorganised sector. However, Company always remained as a preferred vendor in the respective segments being a quality supplier. The overall capacity in the industry is significantly more than the overall demand leading to threats of margin pressures.

Imports of PVC films at low cost especially from China continues to be a threat. Though as of now there is not much impact in the market place, but probable risk exists. Superior customer service, timely delivery and appropriate pricing we believe, will help us to mitigate some portion of the potential risk.

SEGMENT PERFORMANCE

Company's business is covered under single business segment.

RISKS AND CONCERNS

PVC resin, used as key raw material has many industrial competing applications. Resin is a by-product of Petroleum. Given the volatility in Global crude oil price and demand for polymers for competing applications, the pressure on the input costs can be expected to fluctuate. Demand for PVC resin in the country has been increasing every year. Domestic supply is not adequate to meet the rising demand. Hence imports are made to fulfil resin requirements as and when required, which is subjected to forex risks, logistics issues and import-duty regulations if any.

INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

Company has proper and adequate internal control systems to ensure that its assets are safeguarded and that transactions are properly authorised, reported and recorded. The Company has also a system of internal audit and management reviews to ensure compliance with the prescribed procedures and authority levels.

FINANCIAL PERFORMANCE

Company's Gross Sales for the year stood at Rs. 262 crores compared to Rs. 277 crores during the previous year. However, margins during the year improved due to favourable fluctuations in major raw materials, and cost effectiveness measures mainly in utilities. Better product mix and cost savings in energy, yielded company's improved profitability. The Company earned a profit (before exceptional items and tax) of Rs. 17.32 crores as compared to Rs. 10.87 crores in the previous year mainly due to softening of raw material and other input costs, which in turn affected the sales prices.

Company's Financial position for ten (10) years is appended separately in the Annual Report.

HUMAN RESOURCES

The Company appreciates continued efforts of its dedicated team of employees. Industrial relations by and large remained cordial during the year. The number of employees on the roll as on 31st March, 2016 was 390 across all locations. The Company accords very high priority to safety in all aspects of its operations. The employees are trained in various aspects of safety.

CAUTIONARY STATEMENT

Statements in the Management Discussion and Analysis describing Company’s objectives, estimates and expectations may be forward looking statement within the meaning of applicable laws and regulations. Actual results might differ substantially or materially from those expressed or implied. Important developments that could affect Company’s operations include significant change in political and economic environment in India or key markets abroad, tax laws, environmental laws, litigations, labour relations, exchange rate fluctuation, interest and other costs.
